TRANSMITTAL OF THE ROCKY FLATS CLEANUP AGREEMENT STANDARD  
OPERATING PROTOCOL FOR RECYCLING CONCRETE-BWM-013-99

Enclosed please find five copies of the Rocky Flats Cleanup Agreement Standard Operating Protocol (RSOP) For Recycling Concrete dated May 17, 1999. The document incorporates comments received from the Department of Energy, Rocky Flats Field Office (RFFO). As previously discussed with RFFO, this draft RSOP includes a change from the approach presented to the stakeholders earlier this year. The Kaiser Hill Team and RFFO have agreed that the recycled concrete may be used anywhere on site where gravel may be needed in addition to using the recycled concrete as backfill on site.

Please forward a copy of the enclosed RSOP to the Colorado Department of Public Health and Environment (CDPHE) and to the Environmental Protection Agency (EPA) for review and comment. A draft transmittal letter is attached for your consideration. We would appreciate notification of your transmittal of the document to CDPHE and EPA, and of its subsequent approval.

# DRAFT

May 17, 1999

Mr. Tim Rehder  
U.S. Environmental Protection Agency, Region VIII  
999 18<sup>th</sup> Street, Suite 500, 8EPR-FT  
Denver, CO 80202-2466

The U.S. Department of Energy Rocky Flats Field Office (RFFO) is pleased to transmit the "Draft Rocky Flats Cleanup Agreement Standard Operating Protocol for Recycling Concrete" (RSOP) for your review and comments. This document outlines the selected strategy and applicable requirements for recycling concrete on site. As previously discussed with the Colorado Department of Public Health and Environment (CDPHE) and the Environmental Protection Agency (EPA), this draft RSOP includes a change from the approach presented to stakeholders earlier this year. RFFO, CDPHE and EPA have agreed that the recycled concrete may be used anywhere on site where gravel may be needed in addition to using the recycled concrete as backfill on site.

RFFO requests Agency comments and response by May 27, 1999. If you should have any technical questions regarding this document, please respond to Fred Gerdeman at (303) 966-6203 or contact me at (303) 966-3094.

Sincerely,

Henry F. Dalton
